

BSocket

BSocket

BoapSignalObject

```
classDiagram
    class BoapSignalObject
    class BSocket1
    class BSocket2
    BoapSignalObject <|-- BSocket1
    BoapSignalObject <|-- BSocket2
```

The diagram illustrates a class hierarchy. At the bottom is a box labeled 'BoapSignalObject'. Two lines extend upwards from the top edge of this box, meeting a horizontal line. From the left end of this horizontal line, an arrow points up to the bottom edge of a box labeled 'BSocket'. From the right end of the horizontal line, an arrow points up to the bottom edge of another box labeled 'BSocket'. This indicates that 'BoapSignalObject' is the superclass for both 'BSocket' instances shown above.
